Art Unit: 3672

Claims 1, 6, 11, 26, 27, 29, 30 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Lynde et al., U.S. 5,404,944.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Sharp et al., U.S. 6,848,506.

Allowable Subject Matter

Claims 8, 9, 12, 13 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16, 17 and 22 are allowed.

Response to Arguments

Applicant's arguments with respect to the amended claims and previous rejection have been considered are persuasive but rendered moot in view of the new ground(s) of rejection.
